

## Important Questions - NNFL

1. Differentiate between ML & Deep Learning.
2. Explain the working of Deep Learning Model in brief.
3. Differentiate Classification & Regression with suitable example.
4. Differentiate Supervised & Unsupervised with an example.
5. Explain Neural Networks in Detail.
6. Explain the Structure of Neural Network.
7. Explain Neural Networks and how it is inspired by the Human Brain.
8. What is the main difference between DFF & RNN.
